## NEWS ADVISORY

The Illinois Commerce Commission announced today the cancellation of three public hearings, scheduled for Tuesday in Batavia, Wednesday in St. Charles and Thursday in Geneva, on a proposal by Commonwealth Edison to construct a 138 kV power line in Kane County.

The proposed line would extend approximately 16 miles, between St. Charles and Batavia.

The Commission's administrative law judges Ian Brodsky and Leslie Haynes responded to a filed request by Lt. Governor Pat Quinn in Docket # 02-0838 to postpone the public hearings.

Commonwealth Edison filed a motion May 29 seeking a stay of 120 days in the case. A status hearing in the legal proceeding is scheduled for July 1, 2003.
